Leverage and Liquidity Disclosures

31 March 2026

Alubaf Arab International Bank B.S.C (c)

As at 31 March 2026

Liquidity Coverage Ratio

The Group is subject to the Basel III liquidity ratios requirement, as stipulated by the regulator Central Bank of Bahrain, whereby the Bank is required to maintain a minimum of 100% Liquidity Coverage ratio (LCR) and Net Stable Funding ratio (NSFR).

The main objective of the Liquidity Coverage Ratio (LCR) is to promote the short-term resilience of the liquidity risk profile of banks by ensuring that they have sufficient level of high-quality liquid assets (HQLA) to survive a significant stress scenario lasting for a period of up to 30 days.

At 31 March 2026, the Group's LCR was well above the regulatory requirement and stood at 1,283% (31 December 2025: 1053%). The Group's simple average of daily LCR computed on working days of the quarter was 933% (31 December 2025: 707%).

Net Stable Funding Ratio

The Group is subject to the Basel III liquidity ratios requirement, as stipulated by the regulator Central Bank of Bahrain, whereby the Bank is required to maintain a minimum of 100% Net Stable Funding ratio (NSFR).

The objective of the NSFR is to promote the resilience of the banking system by improving the funding profile of banks by ensuring they have a sufficient level of stable funding from stable sources and long term borrowing in relation to their assets and commitments, in order to reduce the risks of disruptions which might impact the bank's liquidity position.

The Groups NSFR was well above the regulatory requirement and stood at 199% as at 31 March 2026 (31 December 2025: 200%). The main drivers for robust Available Stable Funding (ASF) is its sizeable capital base, which contributes about 52% (31 December 2025: 55%) of total ASF and the remaining 48% (31 December 2025: 51%) of ASF constituted funding from deposits from financial institutions and non-financial corporate customers. Required Stable Funding (RSF), primarily comprised of short term deposit placements with Banks and other performing loans, which constituted about 40% (31 December 2025: 45%) of total RSF. High quality liquid assets (that comprised mainly of Bahrain government securities and other highly rated debt issuances) accounted for about 13% (31 December 2025: 12%) of the total RSF, while non-HQLA securities accounted for 28% (31 December 2025: 26%) of the total RSF.
